PROFILE

Self-taught coder, turned JavaScript bootcamp student, turned Full Stack web developer. Experienced in writing clean and efficient DRY, object-oriented code for dynamic websites and applications. I am experienced working in groups using Agile and Scrum methodologies, turning wireframes into websites, and studying UI designs. I have learned how to use modern frameworks and libraries like React, Material UI, and Bootstrap. I am also skilled at using backend JavaScript technologies like PostgreSQL, Express, and Node.js. **I am now seeking JavaScript roles and I am willing and eager to RELOCATE.**
